

**Industrial
Coatings**

Leading the way, more than ever!

Already renowned as Quebec's leading industrial paint manufacturer, SICO Industrial Coatings is ready to face new challenges, now more than ever. With the expertise and commitment of an exceptional team that has enabled the company to become a true institution in our industry, SICO Industrial Coatings can also rely on the vision and energy of a new management team, one poised to breathe new life into the company and lead us to the next level.

SICO Industrial Coatings will continue to develop, invest and expand with a clear focus on its future. Indeed, we are already moving forward: the acquisition of our company, formerly owned by the Akzo Nobel Group, by a private Quebec-based investment fund, ushered in a new beginning for SICO Industrial Coatings.

THE PRIORITY

SICO Industrial Coatings meets clients' needs by offering a wide variety of industrial coating solutions, conventional or in conformity with the latest environmental standards.

INVESTMENT FOCUSED ON TOMORROW

Our R&D team develops environmentally-responsible solutions by selecting raw materials free of any toxic substances and by using cutting-edge processes and technologies that respect the environment. We are industry leaders in this field and we will spare no effort to maintain our position. In the upcoming months, we will invest heavily in our facilities and R&D projects to offer even more effective, safe and viable alternatives tailored to our clients' needs.

SHARING THE ROAD

Understanding your business needs, innovating and working together to develop customized and effective products and solutions, as well as delivering them flawlessly, is at the very core of our mission. More than ever, we are committed to providing you with the outstanding quality you have come to expect.
